

West Virginia DNA Project

New!! Est 13 July 2010

A Home for Mountaineer DNA tests

A Home for comparing DNA testing between families and surnames of the same area- -

Keep track of who is doing testing in WV and with what Surname lines

Look for families and make solid conclusion using families that are most likely related.

Help show other how DNA testing really work!!!

Join your existing DNA ...or order your DNA tests as part of this Project

Get help from People who link and care about West Virginia families

This project can use any assistance from anyone willing to join a team Effort.

Webmasters, databases compilations, researchers, speakers, ambassadors, newsletter writers or anything else you can contribute to help make the Project succeed and grow.
